HÄFELE INDIA · OEM & TRADE CHANNEL · DELHI NCR + HARYANA · APR–JUN 2026

Customers asked for Häfele. The channel didn't deliver.

Aditya Agarwal
Market Intelligence Intern, Häfele India
PGDM 2025–27 · Great Lakes, Gurgaon

193 firms mapped: factories, dealers, kitchen studios

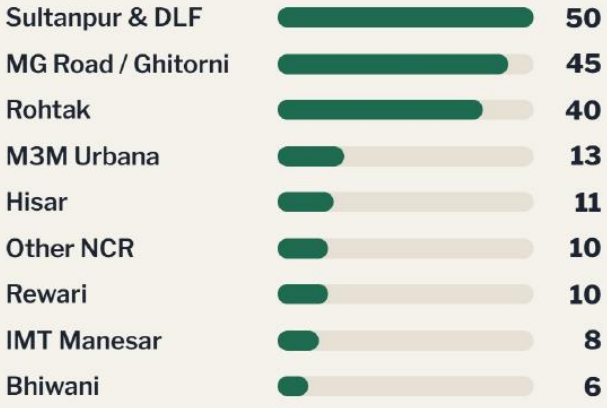

~140 met in person, shop by shop

9 market clusters, Gurgaon to Rohtak

~₹80L a month of hardware spend, mostly with rivals, in 8 accounts

01 WHO I MET

Firms per cluster, from my field sheet

Who they are (firms I could tag)

60 studios **23** dealers **12** factories

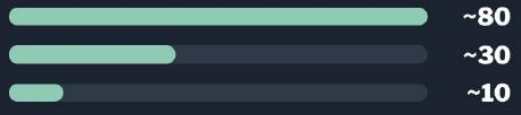

34 existing customers · **29** new · **29** prospects

02 WHAT I FOUND

> "We use Häfele only when the customer asks for it."

The line I heard most. Demand was there; shops still defaulted to Hettich.

How often each rival came up in my notes

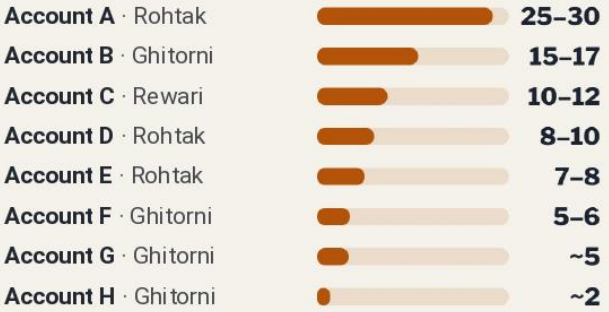

THE 4 PROBLEMS BEHIND IT

1	**Price**	"Ready to switch, but price is the pain."
2	**No support**	No technician, no guidance, no visits.
3	**Trust**	After BIS, a rival turned a supply gap into a rumour.
4	**Dealers**	Undercutting, changing prices, late quotes.

The product was never the problem. Execution was.

03 WHAT IT'S WORTH

Monthly hardware spend (₹ lakh), mostly with rivals. Total ~₹80L

As owners told me: directional, not audited.

04 WHAT I RECOMMEND

1 · Volume price, locked 6–12 months
No list-price cut; Häfele stays premium

2 · On-site training for big clients
Train their fitters on the exact products

3 · End the rumour loudly
BIS proof, new India factory, design centres

4 · One dealer per city, one price list
Stops dealers undercutting each other

Source: my field sheet of 193 firms across 9 clusters (~140 met in person, the rest by phone and Häfele's account lists).

Demand wasn't the problem. Execution was.

A rule changed. A rival attacked.

THE BIG FINDING: HOW THE BIS RULE BECAME A SALES WEAPON

JUL 2025 · THE RULE
BIS mark made compulsory for hinges. Uncertified hinges can't be sold or imported.

THE GAP
Häfele sourced mostly from abroad, so it faced a short supply gap.

THE ATTACK
Hettich, making ~60M hinges a year in Indore, told shops: "Häfele doesn't make its own hinges."

THE DAMAGE
Heard across Ghitorni, Sultanpur and Sikanderpur. Trust fell; shops defaulted to Hettich.

HÄFELE'S ANSWER

"BIS-approved, and now made in India too."

Own India factory (Mar 2026), BIS proof at every counter, design-centre visits, first in the 3 rumour markets.

SWOT — 1 · DIAGNOSE

Where Häfele stands today

Strengths
- Customers ask for it by name
- Full range: hardware, sinks, appliances
- After a design-centre visit, one studio went 65% Häfele

Weaknesses
- Pricier than Hettich: the top complaint
- Import-dependent, exposed by BIS
- Weak dealer control; absent in small cities

Opportunities
- ~₹80L a month in 8 under-served accounts
- 58 new and prospect accounts
- New India factory; sell hardware to appliance buyers

Threats
- Hettich: ~60M hinges a year, cheaper, in stock
- The "doesn't make its own hinges" rumour
- Fake Häfele; more rule changes

STP — 2 · TARGET

Who to go after, and how to be seen

Segment
Factories: Manesar, Ghitorni · volume buyers
Studios: Sultanpur, DLF, M3M · brand-led
Small cities: Rohtak, Hisar, Rewari · unserved

Target
Factories and studios first: most of the ~₹80L a month. Then small cities, to win back dormant accounts.

Position
"Premium, reliable, fully supported: the whole kitchen." Not the cheapest hinge, the kitchen that never fails.

Skip
Buyers who choose only on lowest price. Chasing them starts a price war Häfele can't win.

4Ps: the plan — 3 · ACT

What Häfele should do, and the field proof behind it

Product
Whole kitchen + special fittings (bed hydraulics); starter packs for small buyers.
Why: studios already buy Häfele appliances.

Price
Keep list price; volume rate locked 6–12 months, earned after buying.
Why: big factories asked for long-term deals.

Place
One dealer per city, one price list, 48-hour quotes; dealer earns on direct deals.
Why: Rohtak dealers undercut each other.

Promotion
BIS + "made in India" proof, design-centre visits, on-site fitter training.
Why: trained firms buy the most Häfele.

CASE IN POINT

Rohtak: the market nobody visited

Owners said: "No dealer near us. No technician. Nobody from Häfele ever called."

Yet demand was real: a firm ordering ₹25–30L a month, a ₹5L Quadro order, 100 sets wanted, 160+ flats being fitted.

Fix: one dealer, one price list, one technician. Unserved, not dead.

From "only if the customer asks" to Häfele by default.

THE PLAN IN 6 STEPS 1 WHO → 2 WHAT WE OFFER → 3 HOW WE REACH → 4 PRICE → 5 MESSAGE → 6 ROADMAP

MY TARGET
Win **20–25%** of the ₹75–85L a month in the top 8 accounts: ≈ **₹2 Cr a year**, before counting reactivated accounts.

1 · WHO (SEGMENT)	WHERE	WHAT THEY TOLD ME	2 · WHAT WE OFFER	3 · HOW WE REACH THEM
A · Big factories (OEMs) High volume, price-driven	IMT Manesar, Ghitorni & Mehrauli factory belt	"Price too high." "Quotes come late." Buying Häfele through vendors, not direct.	**Häfele OEM Programme:** volume-slab rates, a 6–12 month locked price, guaranteed stock of fast movers (hinges, runners, Quadro).	**Direct**: one key-account manager for the top ~15 factories.
B · Premium design studios Brand-led, design-driven	Sultanpur, DLF Grand Mall, M3M Urbana	Use Häfele sinks & appliances, but Hettich or Blum *inside* the cabinet.	**Design-centre visits + sample kits**, and a "Genuine Häfele fitted" card the studio hands to its homeowner client.	**Spec-selling**: win the designer and architect, and the order follows.
C · Small-city kitchen makers Unserved, want support	Rohtak, Hisar, Bhiwani, Rewari	"No dealer, no technician, nobody ever called." Asked for a price list.	**Starter packs** (small quantities, to beat Hettich's loose sales), a fixed price list, and a local technician for fitting help.	**One authorised dealer per city** + WhatsApp catalogue and price list.

4 · PRICE: DON'T JUST CUT IT

Keep the list price (it protects the premium brand). Win on **the price the buyer actually pays**: volume slabs, project rates, yearly contracts, small packs.

5 · MESSAGE: ANSWER THE RUMOUR

"Genuine. German. Made by Häfele."

Show factory proof in Ghitorni, Sultanpur & Sikanderpur, and give dealers a genuine-product check against fakes.

6 · ROADMAP: 12 MONTHS, 3 PHASES

0–3 MONTHS · FIX

- One price list for all dealers
- 48-hour rule for quotes
- Call on the top 8 accounts
- Shortlist a Rohtak dealer

3–6 MONTHS · WIN

- Launch OEM Programme in Manesar & Ghitorni
- Design-centre visits for studios
- Rohtak dealer + technician live

6–12 MONTHS · SCALE

- Copy the Rohtak model to Hisar, Bhiwani, Rewari
- Designer & architect programme
- Cross-sell hardware to appliance buyers

HOW WE'D KNOW IT'S WORKING

Share of wallet in the top 8 accounts

Dormant accounts reactivated

Quote time: 48 hours or less

Price gap between dealers: zero

58 new leads (29 NBD + 29 prospects) turned into buyers
